

AP-30i

Australia's Preferred Postal Scale

FEATURES

- Interfaces directly with Australia Post EPOS Systems
- Dual range operation for maximum accuracy
- Bright LCD displays so the operator and customer can clearly see the weight
- Triple data outlets: Weight transfer to up to 2 EPOS stations and 1 remote display
- Fully Approved by NMI Australia so scale can be used to calculate postage charges
- When the weight is stable the data is automatically sent to the EPOS station
- Low profile & small footprint means minimal bench space taken
- Operates on AC mains only

Capacities: **2000g x 1g**
30kg x 10g
