

# COMPULOAD Cloud Interface System

19 May 2021, 13:45:27  
Load: 37  
Customer: Dunns Sands  
Product: 20MM  
Truck: Div013  
**Total: 34.25 t**

19 May 2021, 13:33:10  
Load: 36  
Customer: Shultz Bulk  
Product: Lime  
Truck: Sbh004  
**Total: 29.85 t**

19 May 2021, 13:02:55  
Load: 34  
Customer: Shultz Bulk  
Product: Lime  
Truck: Sbh004  
**Total: 40.90 t**

19 May 2021, 13:19:44  
Load: 35  
Customer: Shultz Bulk  
Product: Lime  
Truck: Sbh004  
**Total: 37.60 t**

19 May 2021, 12:50:15  
Load: 33  
Customer:  
Product:  
Truck:  
**Total: 19.85 t**

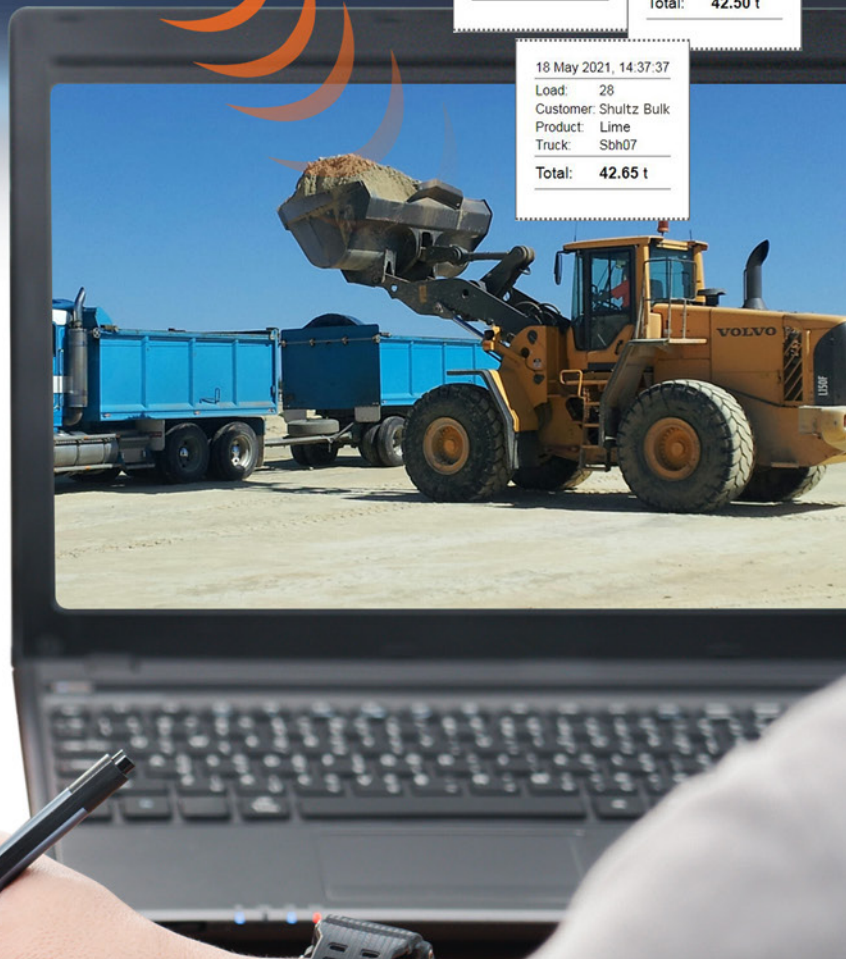

19 May 2021, 11:23:21  
Load: 32  
Customer: Dunns Sands  
Product: 20MM  
Truck: Div013  
**Total: 28.15 t**

19 May 2021, 08:04:14  
Load: 31  
Customer: Dunns Sands  
Product: Lime  
Truck: Xn37SN  
**Total: 37.50 t**

19 May 2021, 07:05:17  
Load: 30  
Customer: Dunns Sands  
Product: Lime  
Truck: To14WY  
**Total: 36.25 t**

18 May 2021, 14:57:21  
Load: 29  
Customer: Shultz Bulk  
Product: Lime  
Truck: Sbh13  
**Total: 42.50 t**

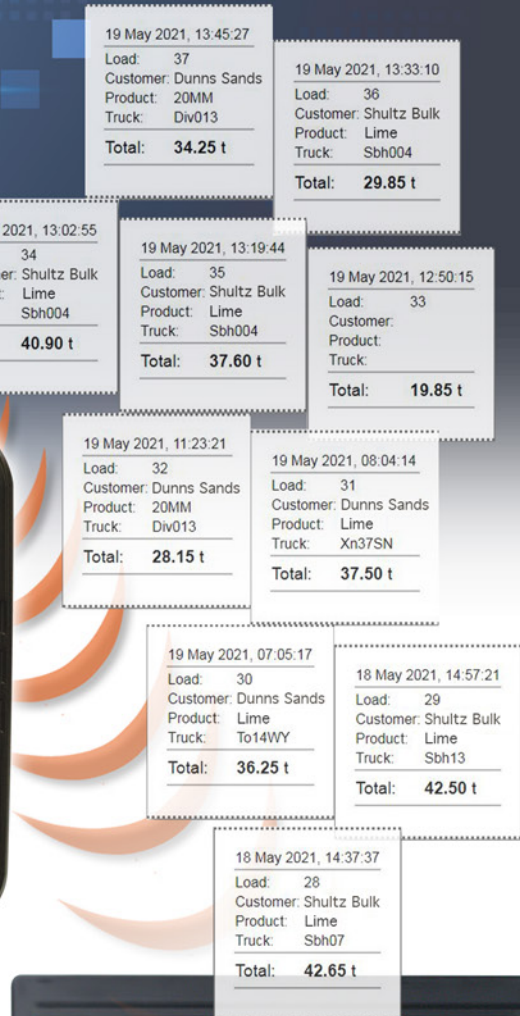

18 May 2021, 14:37:37  
Load: 28  
Customer: Shultz Bulk  
Product: Lime  
Truck: Sbh07  
**Total: 42.65 t**

# COMPULOAD Cloud Interface System

**Compuload**  
On Board Weighing Systems

- Power Supply is 12-24 VDC
- Communications with Compuload via CAN Bus
- Wireless Communications via Telstra 4G/LTE Network
- External Antenna allows for optimal positioning and better signal strength.
- Compuload Data Logs are automatically uploaded to the Compuload Live cloud database as they occur (in real time). Data logs are still stored locally in the Compuload so that records are not lost if the wireless network is temporarily unavailable. Once the network becomes available again, unsent records will be automatically uploaded to the cloud.
- First 12 months subscription is free
- The monthly subscription fee includes access to both Telstra network and Compuload Live cloud database. No customer Telstra accounts or Sim cards required.
- The Compuload Live Cloud database can be accessed by any computer, laptop or tablet worldwide ( Code protected of course) that can access the internet.
- Compuload CL4070 On Board Printer is still able to be used for printing of dockets at the time of loading and end of day / summary totals
- Compuload USB Downloader can still be used in conjunction with the Compuload Wireless Data Download System
- From the Compuload Live Cloud Database , exporting can be easily done to spreadsheet, Excel or similar. Information includes Total Weight, Customer Name\*, Product Name\*, Truck Id\*, Time of Loading, Bucket Count.  
\*indicates that this field can be customised if required.

For all your weighing requirements contact us today Tel: 1800 285 277 [www.compuload.com.au](http://www.compuload.com.au)
